LUMEN

textile objects collection

Lumen is a collection of throws, scarves and cushions, 100% made in Belgium created by the label *NoMoreTwist*. All products are made of high quality wool, silk and viscose jacquard fabrics.

For this 4th collection, the 3 designers' textile exploration has been guided by light phenomena. Drop shadow, reflection and shimmering brings unique textures and vibrant patterns to life.

The *Lumen* collection gives a new insight to the previous 2 collections, *Histoires Naturelles* and *Pinacoteca*. The pattern and colour harmony allows a variety of combinations.

NoMoreTwist

textile design studio

The NoMoreTwist project is a place for collective research as well as a brand of textile objects. The design studio unites Marie Beguin, Anne de Prémare et Michèle Populer around a loom. The brand's DNA is textile. Each new production considers the thread itself, its thickness, texture, colour and, above all, the various ways of interlocking it.

The collections are 100% made in Belgium, with a close collaboration between a weaver, and a sewing workshop.

You can buy our product on our website **www.nomoretwist.be/shop** or by our retailers : **www.nomoretwist.be/stockist**
