NoMoreTwist LUMEN² collection

LUMEN²

textile objects collection

A dozen of new products come to flesh out «Lumen (1)», a collection of throws, scarves and cushions, 100% made in Belgium created by the label NoMoreTwist. All products are made of high quality wool, silk and viscose jacquard fabrics.

For this collection, the designers' textile exploration has been guided by light phenomena. Drop shadow, reflection and shimmering brings unique textures and vibrant patterns to life.

The Lumen collection gives a new insight to the previous collections, *Histoires Naturelles* and *Pinacoteca*. The pattern and colour harmony allows a variety of combinations.

NoMoreTwist

textile design studio

The **NoMoreTwist** project is a place for collective research as well as a brand of textile objects. The design studio unites Marie Beguin, Anne de Prémare et Michèle Populer around a loom. The brand's DNA is textile. Each new production considers the thread itself, its thickness, texture, colour and, above all, the various ways of interlocking it.

The collections are 100% made in Belgium, with a close collaboration between a weaver, and a sewing workshop.
